Sachin Arora

Scrum Master and Principal Solutions Architect at Cloud Analogy
South West Delhi, Delhi, India

Summary

An IT professional with a breadth and depth of software design and development experience. With over 6 years of experience in the IT field, I have had the privilege of working in varied hardware and software environments ranging from Honeywell & IBM Mainframes, Enterprise Java, PLM technologies, RFID, Cloud technologies such as Salesforce, AWS, Cloud Foundry & Google App Engine and Mobile. My range of experience helps me connect well and communicate appropriately with associates ranging from developer to senior management. Industry exp. offered me wonderful opportunities to travel and work in various locations as well as contribute to client success with contributions at various levels ranging from developer, transition manager to architect.

I believe in continuous learning and am always on the lookout to add that new skill to my arsenal or the opportunity to utilize my skills.
